Queensland Child Safe Standards

We work to these 10 Standards. The Universal Principle applies across all of them.

Universal Principle
Aboriginal and Torres Strait Islander children have a right to cultural safety — welcome, safe, valued, included and respected.

1 Leadership and culture Child safety and wellbeing is embedded in leadership, governance and culture.	2 Voice of children Children are informed about their rights, take part in decisions that affect them, and are taken seriously.
3 Family and community Families and communities are informed and involved in promoting child safety and wellbeing.	4 Equity and diversity Equity is upheld and diverse needs are respected in policy and practice.
5 People People working with children are suitable and supported to keep child safety at the centre of practice.	6 Complaints management Processes to respond to complaints and concerns are child focused.
7 Knowledge and skills Staff are equipped with the knowledge, skills and awareness to keep children safe.	8 Physical and online environments Physical and online environments promote safety and wellbeing and reduce the chance of harm.
9 Continuous improvement How we use the Standards is reviewed and improved.	10 Policies and procedures Policies and procedures show how the organisation is safe for children.
